Information Systems graduate with over 3 years of experience as a NOC Engineer. Expertise in networking, including network monitoring, troubleshooting, and configuring network devices. Proficient in technologies such as TCP/IP, DNS, routing, and switching. Also equipped with additional skills in web programming and data analysis using SQL, Python, and Excel to support network performance analysis. Passionate about advancing a career in networking, with a focus on improving network performance, reliability, and security.

## EDUCATION

**GUNADARMA UNIVERSITY** — Depok, Indonesia
*Information System (IPK 3.74)* — 2021-2025
**VOCATIONAL HIGH SCHOOL 1 CIBINONG** — Bogor, Indonesia
*Software Engineering* — 2017-2020

## WORK EXPERIENCES

**PT. HEXA DAYA SOLUSI**

**Jun 2025 – Aug 2025**

*Network Engineer (Freelance)*

- Assisted in configuring 40 Juniper EX3400 switches under senior engineer guidance.
- Supported Phase 2 deployment by configuring 17 Juniper switches under senior supervision, including hostname setup, static routing, IP management interfaces (IRB and ME), and RSTP.

**PT SIX NETWORKS TELECOMUNICATION**

**Aug 2021 – Jun 2025**

*Network Engineer (Part Time)*

- Site survey for new custormer
- Perform fiber optic cable pulling for every new customer
- Internet installation with Fiber To The Home method [FTTH]
- Internet installation with Wireless method [Point To Point and Point To Multi Point].
- Fiber optic maintenance [splicing using fast connector].
- LAN maintenance [utp cable crimping].
- Resolve technical issues related to hardware, software, or network connectivity.
- Set up and troubleshoot basic network configurations, including LAN and Wi-Fi connections.
- Assist switch migration from CISCO 2960 to CISCO 2950
- Network monitoring with Telegram bot and The Dude
- Managed monthly billing generation through a billing dashboard system .
- Ensured accuracy of customer data, billing amounts, and billing periods .
- Monitored payment status (paid/unpaid) and due dates .
- Handled customer invoices (generate, update, and track) .
- Coordinated with related teams to validate data and resolve billing issues .
- Maintained and updated customer information (ID, address, services, etc.) .
- Prepared basic reports on billing and payment status.
- Manage Core Router with 200+ active customer.
- Sometimes handle customers complain 24x7.

- Bandwith management [Queue].
- Traffic management for different upstream.
- Reroute customer network to another upstream.
- Reroute different traffic to another upstream.
- Perform check if packet loss happen.

**CV IBNU AUF JAYA**

**Jan 2020 – May 2021**

*Network Field Engineer (Freelance)*

- Internet installation with Fiber To The Home method [FTTH].
- Internet installation with Wireless method [Point To Point and Point To Multi Point].
- Fiber optic maintenance [splicing using fast connector].
- LAN maintenance [utp cable crimping].
- Perform Network maintenance if there is an error at Core or distribution Router and Switch.
- Customer visit to troubleshoot internet access.
- Perform network migration from old devices to new devices.
- Box panel instalation to every each distribuition point for transit internet installation.

**INDONESIA DEFENSE UNIVERSITY**

**Jan 2018 – March 2018**

*IT Support (Internship)*

- Create a website helpdesk for IT Division with Laravel Framework.
- Storing, maintaining, preserving, and producing data archives.
- Troubleshooting any problem on Computer.

## SKILLS

- **Programming**: HTML, CSS, PHP, Python, MySQL, SQL, C#, Java, Javascript, .NET (Visual Studio Code, Visual Studio, Apache Netbeans, Google Collab, XAMPP, GitHub)
- **Networking**: TCP/IP, OSI Layer, DNS, DHCP, VLAN, Crimping LAN, Cisco Basic Config, AP Basic Configuration, Wireless LAN installation, Linux (VirtualBox, Winbox, Dude, Putty, Cisco Packet Tracer)
- **Office Tools:** (Excel, Word, Power Point, Visio, Draw.io, TeamViewer, AnyDesk)
- **Soft Skill:** Teamwork, Adaptability, Global Mindset, Problem Solving, Analytical Thinking

## COURSE AND CERTIFICATIONS

- **Creating Business Intelligence** by Lepkom Gunadarma
- **Basic Data Visualization** by Dicoding Indonesia
- **Intermediate VB.Net** by LepKom Gunadarma
- **Intermediate C#** by LepKom Gunadarma
- **JavaScript Programming Basic** by Dicoding Indonesia
- **NSE 1 Network Security Associate** by Fortinet
- **NSE 2 Network Security Associate** by Fortinet
- **Fundamental Web Programming** by LePKom Gunadarma
- **Fundamental Desktop Programming** by LePKom Gunadarma
- **Fundamental Networks** by ID-Networkers

- **Wireless LAN Installation** by Lepkom Gunadarma
- **TOEFL ITP** by Brighten English Pare Kediri
- **Basic Cisco** by ID-Networkers
- **Basic Linux** by ID-Networkers
